

EXPLANATORY NOTES

Council is committed to its “Greening Blacktown” program. Part of this endeavour is to preserve as many of the existing established tree stock as is practicable.

The Tree Preservation Order under the Blacktown Local Environmental Plan 1988 requires Council approval/ consent to remove or prune any live tree, as indicated below:-

“tree” - means a perennial plant not less than one meter high with at least one self-supporting woody stem which is a plant of a species, variety or cultivar, each of the members of which, if permitted to grow to its maturity, would generally have a height in excess of 3 metres.

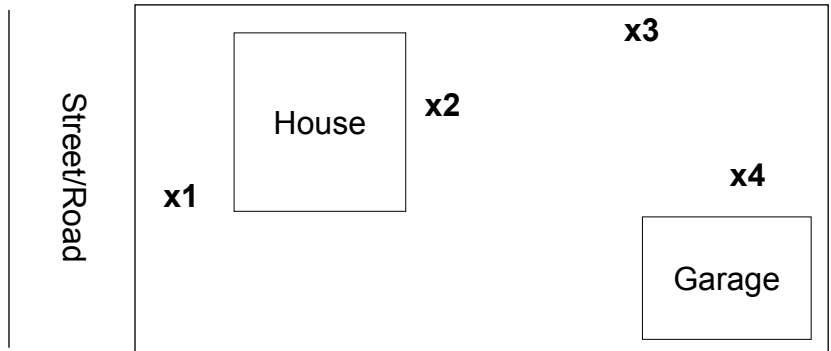

EXAMPLE OF INFORMATION REQUIRED ON BLOCK PLAN

Please indicate:-

1. Position of any building(s) on the land.
2. Position of any tree(s) to be removed or pruned.

NB: *Please attached a separate sheet if the space provided is insufficient.*

PROMINENTLY MARK THE TREE(S) TO ASSIST IDENTIFICATION BY COUNCIL'S ASSESSING OFFICER. (e.g. coloured tape around the trunk)

Tree No. (on block plan)	Remove, Prune or Crown Reduce	No. & Type of Tree(s)	Reason for Application
1	Prune	Jacaranda	Branches interfering with overhead electricity wires
2	Remove	Gum (iron bark)	<ul style="list-style-type: none"> • Dead branches are falling on roof of house • Roots are damaging house footings/foundations
3	Remove	Silky Oak	Infested with borers and its growth is stunted
4	Crown Reduce	Gum (Lemon Scented)	Tree excessively shading neighbours backyard & solar panels

1. PRUNING

Pruning is the direct removal of limbs and branches of a plant to a predetermined end.

Types of Pruning

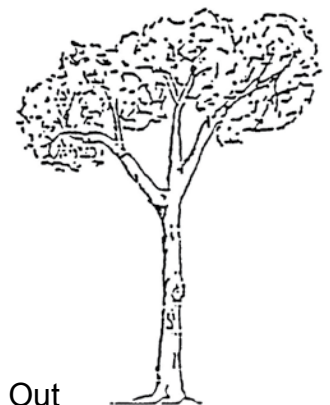

- a. **Cleaning Out** - The removal of any diseased, damaged or dead branches that could cause a problem.
- b. **Lifting** - Is the removal of the lower branches which enable better vision or access.
- c. **Crown Thinning** - The selective removal of secondary branches to their point of origin without any reduction in height.

Natural Shape

2. CROWN REDUCTION

- a. **Thinning Out** - The reduction in height and spread while keeping the plant's natural shape.
- b. **Lopping** - The main branches are cut back to stubs with little regard for its shape and future problems. This is not recommended as it can pre-dispose trees to infectious diseases, sun-scalding of bark, and borer attack resulting in decayed and potentially hazardous trees with a reduced life span.

Thinning Out

3. REMOVAL

- a. The complete removal of a tree, including the stump.

TREE REMOVAL/PRUNING APPLICATION

Blacktown City Council

BLACKTOWN CITY COUNCIL
 DX 8117 Blacktown
 PO Box 63, Blacktown NSW 2148
 Phone: (02) 9839 6000
